FTM is a dynamic investment product that places emphasis on capital preservation first and foremost, while targeting returns commensurate with the long term market averages without the roller coaster ride associated with many buy and hold investment strategies. FTM achieves this by spreading investment risk between FX, Term Deposits and Capital Secured Investments.

The major difference between FTM and traditional investments is the use of Medical Accounts Receivables which make up 85% - 90% of the portfolio and are secured at a rate of \$3 for every \$1 invested. The remainder of the portfolio can vary from 5% to 15% in cash and have up to 5% of the overall portfolio in FX trading, set with a maximum stop loss of 35 percent which limits the overall portfolios exposure to 1.75%

In this manner FTM achieves the following

- 90% - 95% of the portfolio is Capital Secured
- 5% (maximum) is exposed to FX with a total portfolio risk of 1.75%.
- Targeting returns commensurate with the long term market averages irrespective of market conditions or direction

Minimum Investment	\$5,000 USD
Minimum Top-Up	\$1,000 USD
Management Fee	2.00%
Incentive Fee	10% on high
Subscription Fee	4.00%
Redemption Fee	1.00%
Lock-In Period	3 Months
Redemption Notification Period	21 business days
